

ACCELERATOR PEDAL ACTUATOR *light!*

Easy to use

Fast stroke calibration

**External command by
analog signals or Profibus line**

Technical characteristics:

| | |
|---------------------|--|
| Dimension: | 350x390x200 mm |
| Max stroke: | 170 mm |
| Whole stroke time: | 500 ms |
| Position precision: | ± 0.1 mm |
| Max load: | 150 N |
| Power supply: | 12 - 24 Vdc (max load current @ 12 V = 20 A) |
| Communication line: | Profibus |
